Hiring a professional wedding photographer is crucial for capturing the essence of the day and preserving the emotion and joy that was felt by you and your loved ones.

A wedding photographer has a trained eye and extensive experience. Being aware of how to take advantage of lighting and angles, understanding how to use the different settings on the camera and knowing the best ways to achieve the best shots are just a few of the things that professionals bring to the table. When the wedding is over, the bouquet is tossed and the last piece of cake is eaten, the only thing left from this big day will be the wedding photos. You will want nothing more than the images to truly represent how spectacular and beautiful the day was so that you can forever cherish these memories.

Notes:

Remember your photographer will be a vital part of one of the most important days of your life, so be sure you choose someone you feel good about. If you don't click with them, move on! A good photographer will also recommend key elements to include in your photos.

Once you have your wedding booked, you are welcome to come out and visit as many times as you would like. You can make appointments online via the home page of our website. A lot of couples try and visit in the same month but the year prior to their wedding. This will enable you to look at lighting and sunset times to get a good idea of timing for your wedding day.

### HOT TIP from Fable House

When planning your wedding video, it is important to consider getting the most out of the daylight. This might involve choosing a location where you have little to no travel time. A location where you may be able to get ready, have your ceremony and reception all in one and in doing so, allow more time after your ceremony to capture the precious moments as a new husband and wife.

**It's what is on the inside that counts  
from Baked by Brooke**

There are some stunning cakes that look smooth, elegant and classy, that are decorated with fondant icing, but do you like the taste of it? Also think about how your cake will be transported and stored. It only takes minutes for a cake to become a hot mess, so plan ahead and crank the air-con in advance!

**Hot tip from Tyneale Hahn**

Try not to let the finer details stress or distract you, so you can be present in every moment. Book vendors you can put your trust in. Many vendors – be it photographers, hairstylists, makeup artist, florists etc – will have a particular style to their work. Source your vendors around your chosen style and you will never be disappointed.

**Bouquets, buttonholes, table centrepieces and more!**

You could visit the Rocklea Markets ([www.brisbanemarketplace.com.au](http://www.brisbanemarketplace.com.au)) to purchase fresh flowers to create your floral pieces yourself, which can be a very cost effective option. However if you do not feel confident doing this, we also have a local florist. Rachel, the lovely owner of *Rustique Rose Tea Room & Florist*, can supply you with outstanding professionally presented flowers for your special day (Ph: 07 5465 1755, 111 Patrick Street, Laidley).

**Drinks**

You are welcome to BYO alcohol and drinks, which is an excellent way to save money.

We do recommend that you hire a mobile cold room to store all of your drinks (and anything else you may need to keep chilled). This is set up at the Pavilion. Almost all hire companies have mobile cold rooms for hire, usually at a cost between \$100-\$150. You may also like to consider a drinks caravan for something different. The majority of couples simply use tables for their bar, but we have also seen some fantastic rustic creations!
