## Catering & Alcohol

### CATERING

Branell Homestead is different to most other wedding venues. We allow you to be in control of organising your own catering, enabling you to have the style of food and menu you want.

This will save you thousands because you may not be locked in to paying per head - you can cut costs without cutting quality. You may even know a friend or family member who can cater for your wedding. When you come along to view the venue, we will provide you with a list of businesses that have catered at Branell Homestead in the past. You do not have to choose a caterer from this list - you can bring any caterer you would like. If your caterer has not been to the property before, we do recommend that they either organise a site visit before your wedding or call to discuss their requirements, simply because our set up is so unique.

### BEVERAGES

You are welcome to BYO alcohol and drinks, which is an excellent way to save money. There are no corkage fees or additional charges associated with any alcohol served on the property.

We do recommend that you hire a mobile cold room to store all of your drinks (and anything else you may need to keep chilled). This is set up at the Pavilion. Almost all hire companies have mobile cold rooms for hire, usually at a cost between \$100-\$150. You may also like to consider a drinks caravan for something different. The majority of couples simply use tables for their bar, but we have also seen some fantastic rustic creations!
